Subject Index

Aarskog syndrome 567
Actinomycosis 173
Alpha foetoprotein
  clearance rate, synthesis 491
  hyperbilirubinaemia 59
Amino acids
  cord serum 201
  lysinuric protein intolerance 741
Amphetamine, addiction and pregnancy 675
Asthma
  exercise induced, treatment 165
  physical activity programme, follow-up 347

Bacteriology
  campylobacter enteritis 269
  E. coli, childhood diarrhoea 219
  endocarditis, staphylococcus, epidermidis 731
  group G streptococci, neonatal sepsis 559
  mycoplasma hominis, meningitis 415
  non-tuberculous mycobacteriosis, PPD testing 511
  salmonella typhi, glucose-6-phosphate dehydrogenase defidiency 689
Bilirubin
  D-penicillamin, effect of in neonatal jaundice 31
  hyperbilirubinaemia, alphafoetoprotein 59, 491
  jaundice, risk of in newborns exposed to menthol 341
Blood
  alphafoetoprotein, neonatal hyperbilirubinaemia 59
  bleeding disorders, prenatal diagnosis 809
  factor IX, postnatal development 53
  ferritin, cord blood, preterm infants 637
  ferritin, lysinuric protein intolerance 741
  hemoglobin concentration, iron release 249
  hemophilia A, artropathy 667
  iron deficiency, sickle cell disease 337

leukemia, pituitary-gonadal function after treatment 691
leukemia, cortical blindness 781
leukemia, relapse rate 663
leucocyte count, neonatal asphyxia 779
lymphocytes, sterol synthesis 447
thrombocytopenia, vincristine treatment 253
Breast feeding
in Malaysia 525
metabolic consequences, premature infants 647
promotion of 279
recent trends in Finland 89

Cardiovascular system
blood-pressure, familial aggregation 109
blood pressure, first year of life 613
cardiac structures, growth pattern 239
coarctation of aorta 113
coarctectomy, gas exchange after 467
congenital heart disease, epidemiological aspects 619
fibromuscular dysplasia 563
heart rate variability, newborns 393
interrupted aortic arch 783
persistent left superior vena cava 105
systolic time intervals 239
umbilical artery catheterization 365, 371
Chromosomes
ring chromosome 14, mental retardation 803
Cystic fibrosis
nutritional status 353
Tamm-Horsfall protein, autoantibodies to 189

Diabetes
gastric secretion, parietal cell antibodies 485
Hb A_{1c} 475, 481
lipoatrophic 537
urinalysis, validity of 531
Down's syndrome
zink and immune function 183

Endocrine system
antidiuretic hormone, labour, newborns 505
dehydroepiandrosterone, growth hormone therapy 287
excessive height, treatment of 293
hyperthyroidism, diabetes mellitus 259
hyperthyroidism, gastric findings 535
prolactin, renal insufficiency 299
parathormone, tubular calcium reabsorption 311
pituitary-gonadal function, treated leukemia 691
somatomedin and growth hormone 37
thyroid hormones, neonates 43, 775
thyroid medullary carcinoma, early diagnosis 693
Enzymes
digestive, effect on human milk 517
hyperphosphatasemia, transient 235
pepsinogen 215
secretin, neonates 205

Ferritin 637, 741
Foetus
bleeding disorders, prenatal diagnosis 809
hepatitis A antibody, transmission 533
prostatic utricle 257

Galactosemia 735
Gastroenterology
anal sphincter, activity in neonates 73
coeliac disease, brain depressor amine 643
congenital chloride diarrhoea, prenatal diagnosis 807
diarrhoea, E. coli 219
gastric inhibitory polypeptide, neonates 321
gastric secretion, diabetes mellitus 485
gut transit time, lactose malabsorption 65, 69
intestinal fluid, cholera 225
pancreatic polypeptide, plasma, neonates 211
pepsinogens 215
peptic ulcer, early infancy 753
protein-losing enteropathy, congenital hepatic fibrosis 571
secretin, plasma, neonates 205
starch absorption, low birth weight infants 653
sucrose tolerance test 79
Growth
cardiac structures 239
excessive height, treatment of 293
protein-energy malnutrition 331
pubertal, bone and alkaline phosphatase 49
somatomedin, growth hormone 37

Hyperphosphatasemia, transient 235

Immunology
agammaglobulinemia, vaccine-associated poliomyelitis 549
antibody response, DTP-vaccine, poliovaccine 177, 397
combined immunodeficiency 797
complement deficiency, meningococcemia 553
deficient cell immunity, Rubinstein-Taybi syndrome 123
endocarditis, immunosupressed host 731
hepatitis A antibody, materno-foetal transmission 533
immune function, Down's syndrome 183
immunocompetence, obesity 25
lymphocyte subpopulations 13, 193
non-specific immunity, nephrotic syndrome 21
neutrophil chemotactive defect, hypogammaglobulinemia 699
neutrophils, defective bactericidal function in measles 411
Rh-immunization, prevention of 777
Tamm-Horsfall protein, autoantibodies to 189, 709
T-lymphocytes, mycobacteriosis, non-tuberculous 511
thymic transplantation, DiGeorge syndrome 403
Infectious diseases
campylobacter enteritis, polyarthritis 269
congenital rubella 259
meningitis, mycoplasma hominis 415
meningococcemia, complement deficiency 553
para-influenza pneumonia, DiGeorge syndrome 403

Lipids, serum
composition, cystic fibrosis 353
cord blood, Tanzania 747
cholesterol, infancy childhood 441, 581, 587
Danish schoolchildren 231

diabetes mellitus, plasma lipoproteins 475
hypercholesterolemia, familial 453
LDL receptors, hypercholesterolemia 447, 577
lipoprotein patterns, evolution of 593
sterol synthesis, lymphocytes 447, 577
Liver
cholic acid and chenodeoxycholic acid, serum 659
congenital hepatic fibrosis 571

Malformations
Aarskog syndrome 567
coarctation of aorta 113
congenital hepatic fibrosis 571
interrupted aortic arch 783
persistent left superior vena cava 105
unknown complex 427
Mannosidosis 787
Metabolism
alphafoetoprotein, clearance, synthesis 491
cerebral metabolism 457
galactosemia, borderline type 735
human milk and formula feeding, consequences of 647
iron deficiency, sickle cell disease 337
iron release 249
lysinuric protein intolerance, ferritin 741
mannosidosis 787
obesity, immunocompetence 25
transepidermal water loss 377, 385
Methodology
breath hydrogen measurement 79, 687
computed tomography 255
umbilical artery catheterization 365, 371
ultrasonography, adrenal haemorrhage 695
Milk
bacteriostatic properties, lactoferrin, vitamin B_{12} 517
metabolic consequences 647
riboflavin 119
vitamin B_{12} 93

Nephrology
dialysis encephalopathy, aluminium hydroxide 793
fibromuscular dysplasia 563
nephrotic syndrome, non-specific immunity 21
nephrotic syndrome, cytotoxic treatment 315
nephrotic syndrome, congenital, hypothyroid screening 705
prostatic utricle 257
renal compensatory hypertrophy 83
renal failure, chronic in Swedish children 607
renal insufficiency, serum prolactin 299
Tamm-Horsfall glycoprotein, autoantibodies to, renal damage 709
tubular calcium reabsorption, parathormone 311
uropathies, neonates 499
Nervous system
anticonvulsant therapy, tubular calcium reabsorption 311
brain depressor amine 643
cerebellar symptoms, neuroblastoma 255
cerebral blood flow, brain metabolism 457
cerebral palsy, prevention ad modum Vojta 283
cerebrospinal fluid, β_2-microglobulin 633
dialysis encephalopathy, aluminium hydroxide 793
meningitis, mycoplasma hominis 415
neurological effects, vacuum extraction 625
spinal cord damage, meningitis 471
Newborn infants
adrenal haemorrhage, ultrasonography 695
amino acids, cord serum 201
antidiuretic hormone 505
chestwall compliance 359
cholesterol concentrations 587
D-penicillamin, effect on jaundice 31
gastric inhibitory polypeptide, plasma 211
heart rate variability 393
hyperbilirubinaemia, alpha foetoprotein 59
internal anal sphincter, activity of 73
leukocyte count, meconium aspiration, asphyxia 779
lipoprotein pattern, evolution of 593
lymphocyte subpopulations 13
mechanical ventilation 143, 151
meningitis, mycoplasma hominis 415
pancreatic polypeptide, plasma 211
pleural effusion, unresponsive asphyxia 121
pulmonary hemorrhage 425
pyridoxal phosphate 327
secretin plasma 205
sepsis, group G streptococci 559
serum lipids, Tanzania 747
thrombocytopenia, treatment with vincristine 253
thyroid hormones 43
tolazoline and dopamine therapy 101
transepidermal water loss 377, 385
umbilical artery catheterization 365, 371
uropathies 499
vacuum extraction, effects of 625
Noise pollution, neonatal units 771
Nutrition
amino acid levels 201
protein-energy malnutrition 331

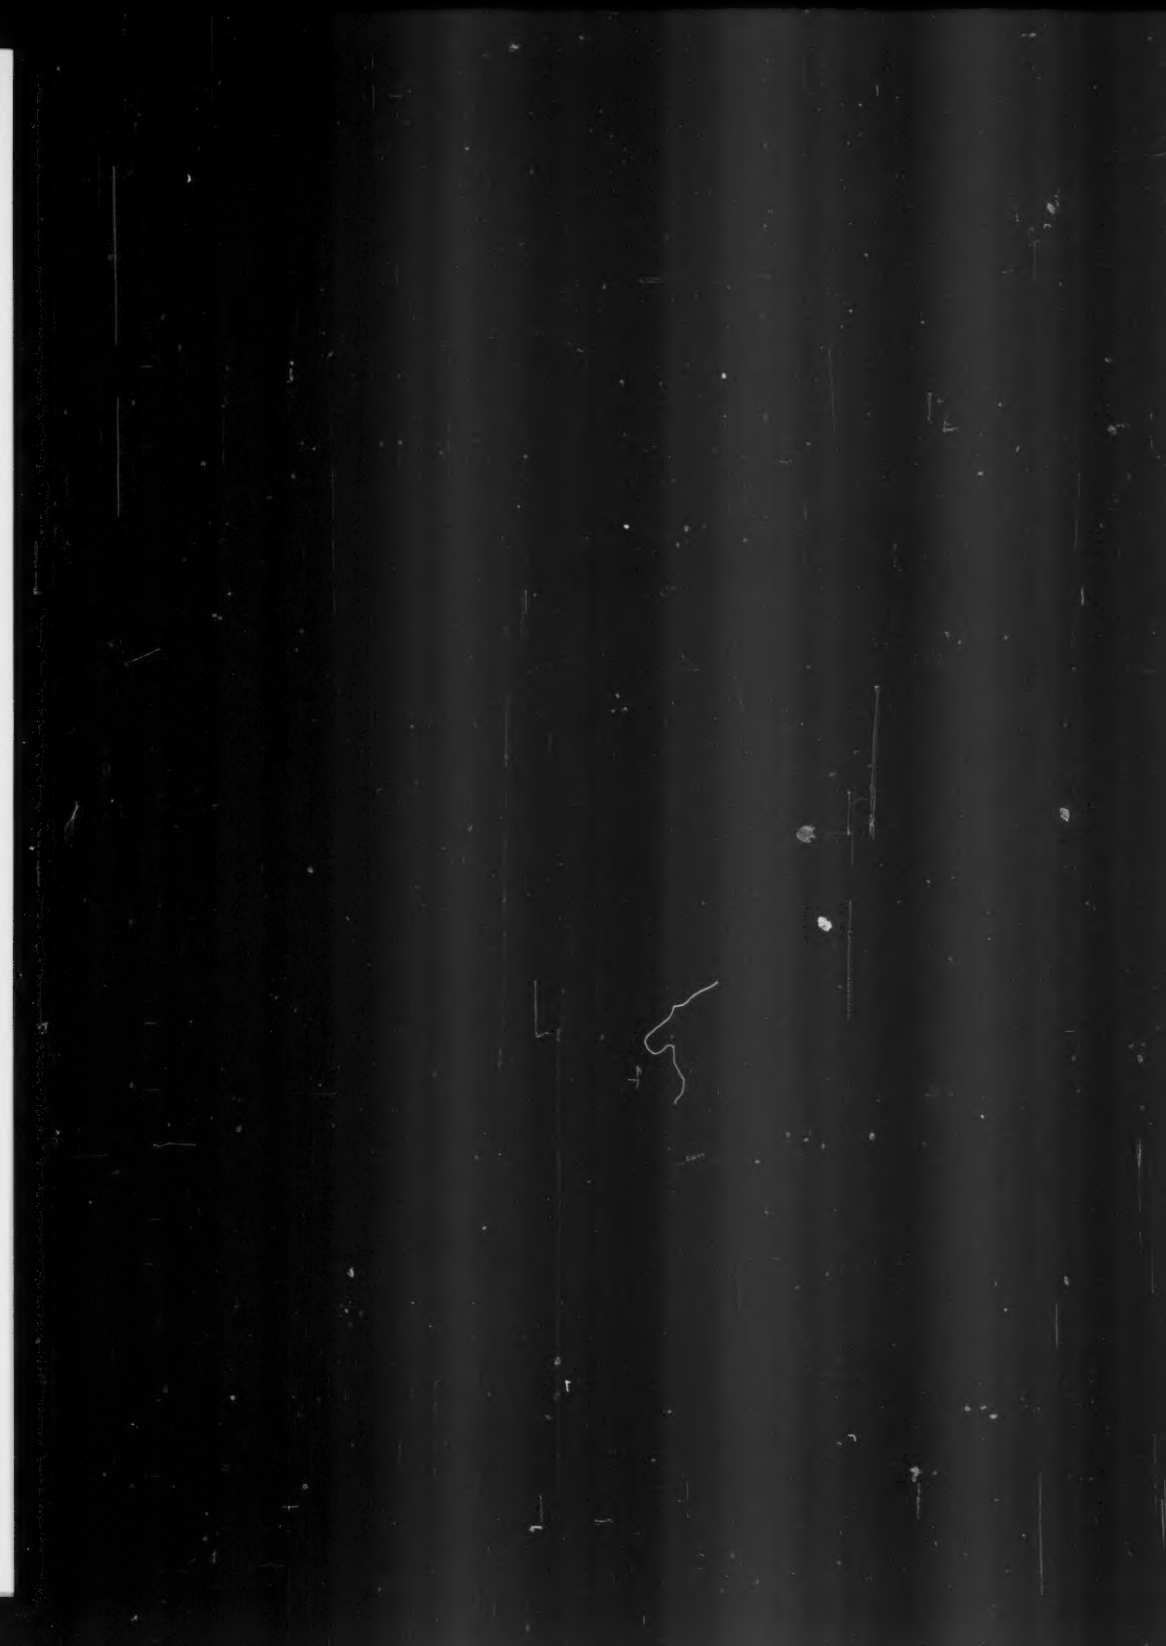
Osteodystrophy, Albright's hereditary 305
Osteogenesis imperfecta, arthropathic form 263

Pharmacology
tolazoline and dopamine therapy 101
Phototherapy 65, 69
Premature and low birth weight infants
chestwall compliance 359
cholesterol concentrations, serum 587
hemoglobin concentration, iron release 249
mechanical ventilation, pulmonary mechanics 761
metabolic consequences, human milk and formula 647
plasma ferritin 637
serum lipids 747
starch absorption 653

Respiratory system
airway obstruction, cystic fibrosis 353
asthma, exercise induced, treatment 165
chestwall compliance, newborns 359
congenital pleural effusion 121
lung volume, gas exchange, coarctectomy 467
mechanical ventilation 143, 151, 761

mechanical ventilation, long-term survivors 159
mechanical ventilation, newborn rabbits 597
positive end-expiratory pressure, rabbits, lambs 597, 603
prolonged apnea, ventilatory studies 545
pulmonary hemorrhage, effect of tolazoline 425
tolazoline and dopamine therapy 101
Rh-immunization, prevention of 777
Rosen von Rosenstein award 1, 129, 273, 433
Rubinstein-Taybi syndrome 123

Social pediatrics
amphetamine addiction 675
breast feeding 89
child health in a changing society 3
Finnish heritage of disease 274
music and the small human being 131
National center in Denver 435
retarded speech, follow-up study 681
Speech, retarded 681

Tamm-Horsfall protein
autoantibodies, cystic fibrosis 189
autoantibodies, renal damage 709
Tumour
ganglioneuroma, vip-producing 419
neuroblastoma, occult 255
thyroid medullary carcinoma, early diagnosis 693


Vaccination
DTP 177
polio vaccines, inactivated, adverse reactions 177, 397
vaccine-associated poliomyelitis 549
Virology
congenital rubella 259
cytomegalovirus, antibodies to 407
measles, defective bactericidal function of neutrophils 411
respiratory syncytial virus 717, 723
Vitamins
B_{12} in colostrum and milk 93, 517
pyridoxal phosphate, neonates, mothers 327
riboflavin in milk and formulas 119
